

Contribution File Specification

Specification Overview

Purpose

The *Contribution File Specification* is a resource to instruct users on how to report creditable compensation and account receivables to CalSTRS according to Teachers' Retirement Law. The Contribution File is used in order to report payroll-type transactions such as Regular, Adjustments, Bargained Retroactive Pay Rate and Account Receivables. This file must be free of errors before it can be submitted to CalSTRS. This document provides the basic guidelines required of a Contribution File, detailed file layouts and business rules.

Version

Version 1.1 – 03/10/2020

Transaction Types

The Contribution File has four transaction types based on the type of compensation being reported.

Transaction Type	Description
Regular	Used to report new payroll earnings for the current month or arrears
Adjustment	Used to correct previously reported and erroneous payroll transactions (this transaction cannot be used to
Retroactive Pay Rate	Used to report adjustments in pay rates due to a bargained pay rate increase or decrease
Account Receivable	Used for post-tax or pre-tax account receivables

Ancillary File Types

There are two ancillary and requisite data files to Contribution File transactions. The success of Contribution File reporting could be dependent on the data submitted on the following files:

File	Description
Employment File	Used to report employment type transactions such as Enrollments, Terminations, Leave of Absence, Contact Information Change, Annual Total Compensation,

File	Description
	Annual Excess Sick Leave Awarded, Reduction in School Funds and Sick Leave
Match File	Used to validate member-specific information with the existing record in the CalSTRS' system and to obtain CalSTRS Client IDs

See the Secure Employer Website for more information on the individual Employment File Specification and Match File Specification documents.

Matching Criteria: Reversals

Background

Transaction Type Adjustment (ADJS), Transaction Type Bargained Retroactive Pay Rate (RPRA), and Earnings Type Special Pay (CLDE, HTRT, LNGY, DTSF, EXST, PMBK, and AVFG) are matched to either companion contribution lines within the same uploaded file or to contribution lines previously submitted/posted to CalSTRS. The matching process is performed to establish a link between the adjustment or special pay contribution lines to previously submitted contribution lines or companion contribution lines on the same uploaded file.

For reversals, a single previously submitted/posted line takes precedence over a companion line for matching purposes. Matching for a single line also takes precedence over matching to multiple lines

Transaction Type

This field must match.

The Transaction Type is considered a match when it exactly matches on both reversal and the target line(s).

Exception: Adjustment transaction type can reverse Regular or Adjustment transaction types. Regular transaction types cannot be used to reverse other lines.

Organization Code

This field must match.

Benefit Program Member Code

This field must match.

Client ID

This field must match.

Las Name

NA

Pay Period Begin Date

This field must match.

The range of pay period on the reversal line must cover exactly the range of all pay periods on the target line or lines.

Example – Single target line:

If the Pay Period Begin of the target line is 9/1/2019 and the Pay Period End is 9/30/2019, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 9/1/2019 and the Pay Period End must be exactly 9/30/2019.

Example – Multiple target lines:

If the earliest Pay Period Begin of the target lines is 8/1/2019 and the latest Pay Period End of all the target lines is 5/31/2020, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 8/1/2019 and the Pay Period End must be exactly 5/31/2020. No target lines may precede the Pay Period Begin or exceed the Pay Period End of the Reversal/Adjustment line.

Pay Period End Date

This field must match.

The range of pay period on the reversal line must cover exactly the range of all pay periods on the target line or lines.

Example – Single target line:

If the Pay Period Begin of the target line is 9/1/2019 and the Pay Period End is 9/30/2019, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 9/1/2019 and the Pay Period End must be exactly 9/30/2019.

Example – Multiple target lines:

If the earliest Pay Period Begin of the target lines is 8/1/2019 and the latest Pay Period End of all the target lines is 5/31/2020, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 8/1/2019 and the Pay Period End must be exactly 5/31/2020. No target lines may precede the Pay Period Begin or exceed the Pay Period End of the Reversal/Adjustment line.

Service Type

This field must match.

The Service Type is considered a match if the Reversal line and target line(s) have the same Service Type or the Reversal line has a Service Type populated and the target line(s) Service Type is null.

Assignment Code

This field must match.

Assignment Code is not required for matching for the Cash Balance benefit program.

Time Base

This field must match.

Time Base is considered a match if the target line(s) have the same Time Base or the Reversal line has a Time Base populated and the target line(s) Time Base is null and Pay Code is not 4 or 8.

If ...	Then ...
Time Base is null on the target line(s) and the Pay Code is 4	Time Base must be Part Time Hourly (PTHR)
Time Base is null on the target line(s) and the Pay Code is 8	Time Base must be Part Time Daily (PTDL)

Full-Time Base Hours for Position

This field must match.

Full-Time Base Hours is not required for matching for the Cash Balance benefit program.

Work Hours Per Day

This field must match.

Work Hours Per Day is considered a match if the reversal line and target line(s) have the same Work Hours Per Day or the reversal line has Work Hours Per Day populated and the target line(s) Work Hours Per Day is null.

Work Hours Per Day is not required for matching for the Cash Balance benefit program.

Expected Pay Periods

This field must match.

Expected Pay Period is considered a match if the Reversal, Adjustment or Bargained Retroactive Pay Rate line and target line(s) have the same Expected Pay Period or the Reversal, Adjustment or Bargained Retroactive Pay Rate line has an Expected Pay Period populated and the target line(s) Expected Pay Period is null but matches to a similar Pay Code.

If Expected Pay Period is null on the target line(s) the following Expected Pay Period and Pay Codes combinations must exist to consider a match:

Expected Pay Periods	Pay Code
13JJ	7
12JJ	1 or 0
1100	2

Expected Pay Periods	Pay Code
11JM	2
11AJ	2
1000	3
10JA	3
10JM	3
10AM	3
10AJ	3
10SJ	3

Expected Pay Period is not required for matching for the Cash Balance benefit program.

Annualized Pay Rate

This field must match.

Annualized Pay Rate must match exactly unless the target line(s) pay rates were previously submitted/posted as monthly/daily/hourly and were converted to annual pay rates. Converted pay rates must match within +/- \$1.00.

For Outgrowth Service Type (OUTG), the Annualized Pay Rate does not need to match.

Earnings

This field must match.

The sum of Earnings for the pay period range must be greater than zero. This includes all target line(s) as well as companion lines and previously submitted/posted Adjustment lines for the pay period range.

Earnings Type

This field must match.

Earnings Type must match exactly unless the target line(s) Earnings Type is "Special Pay." All special pay Earnings Types (CLDE, HTRT, LNGY, DTSF, EXST, PMBK, AVFG) are considered a match when the target line(s) Earnings Type is "Special Pay."

At implementation, all existing Defined Benefit contribution lines with Contribution Code 6 (special compensation) will be populated with Earnings Type "Special Pay."

Member Contributions

This field must match.

The sum of all reported contributions (employer and member) on the target line(s) must match but have opposite signs (positive or negative amount) to the earnings on reversal line.

Employer Contributions

This field must match.

The sum of all reported contributions (employer and member) on the target line(s) must match but have opposite signs (positive or negative amount) to the earnings on reversal line.

Matching Criteria: Adjustments

Background

Transaction Type Adjustment (ADJS), Transaction Type Bargained Retroactive Pay Rate (RPRA), and Earnings Type Special Pay (CLDE, HTRT, LNGY, DTSF, EXST, PMBK, and AVFG) are matched to either companion contribution lines within the same uploaded file or to contribution lines previously submitted/posted to CalSTRS. The matching process is performed to establish a link between the adjustment or special pay contribution lines to previously submitted contribution lines or companion contribution lines on the same uploaded file.

Transaction Type

This field must match.

The Transaction Type must be Regular (RGLR) on the target line(s) to be considered a match.

Organization Code

This field must match.

Benefit Program Member Code

This field must match.

Benefit Program Member Code DB1 is considered a match for previously submitted/posted Member Code 1 contribution lines. Benefit Program Member Code DB2 is considered a match for previously submitted/posted Member Code 2 contribution lines.

At implementation, all existing Cash Balance contribution lines in CalSTRS system will be populated with Benefit Program Member Code CB1.

Client ID

This field must match.

Last Name

NA

Pay Period Begin Date

This field must match.

The range of pay period on the reversal line must cover exactly the range of all pay periods on the target line or lines.

Example – single target line:

If the Pay Period Begin of the target line is 9/1/2019 and the Pay Period End is 9/30/2019, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 9/1/2019 and the Pay Period End must be exactly 9/30/2019.

Example –multiple target lines:

If the earliest Pay Period Begin of the target lines is 8/1/2019 and the latest Pay Period End of all the target lines is 5/31/2020, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 8/1/2019 and the Pay Period End must be exactly 5/31/2020. No target lines may precede the Pay Period Begin or exceed the Pay Period End of the Reversal/Adjustment line.

Pay Period End Date

This field must match.

The range of pay period on the reversal line must cover exactly the range of all pay periods on the target line or lines.

Example – single target line:

If the Pay Period Begin of the target line is 9/1/2019 and the Pay Period End is 9/30/2019, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 9/1/2019 and the Pay Period End must be exactly 9/30/2019.

Example –multiple target lines:

If the earliest Pay Period Begin of the target lines is 8/1/2019 and the latest Pay Period End of all the target lines is 5/31/2020, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 8/1/2019 and the Pay Period End must be exactly 5/31/2020. No target lines may precede the Pay Period Begin or exceed the Pay Period End of the Reversal/Adjustment line.

Service Type

This field must match.

The Service Type is considered a match if the Adjustment line and target line(s) have the same Service Type or the Adjustment line has a Service Type populated and the target line(s) Service Type is null.

Assignment Code

This field must match.

Assignment Code is not required for matching for the Cash Balance benefit program.

Time Base

This field must match.

Time Base is considered a match if the target line(s) have the same Time Base or the Reversal line has a Time Base populated and the target line(s) Time Base is null and Pay Code is not 4 or 8.

If ...	Then ...
Time Base is null on the target line(s) and the Pay Code is 4	Time Base must be Part Time Hourly (PTHR)
Time Base is null on the target line(s) and the Pay Code is 8	Time Base must be Part Time Daily (PTDL)

Full-Time Base Hours For Position

This field must match.

Full-Time Base Hours is not required for matching for the Cash Balance benefit program.

Work Hours Per Day

NA

Expected Pay Periods

This field must match.

Expected Pay Period is considered a match if the Reversal, Adjustment or Bargained Retroactive Pay Rate line and target line(s) have the same Expected Pay Period or the Reversal, Adjustment or Bargained Retroactive Pay Rate line has an Expected Pay Period populated and the target line(s) Expected Pay Period is null but matches to a similar Pay Code.

If Expected Pay Period is null on the target line(s) the following Expected Pay Period and Pay Codes combinations must exist to consider a match:

Expected Pay Periods	Pay Code
13JJ	7
12JJ	1 or 0
1100	2

Expected Pay Periods	Pay Code
11JM	2
11AJ	2
1000	3
10JA	3
10JM	3
10AM	3
10AJ	3
10SJ	3

Expected Pay Period is not required for matching for the Cash Balance benefit program.

Annualized Pay Rate

This field must match.

Annualized Pay Rate must match exactly unless the target line(s) pay rates were previously submitted/posted as monthly/daily/hourly and were converted to annual pay rates. Converted pay rates must match within +/- \$1.00.

For Outgrowth Service Type (OUTG), the Annualized Pay Rate does not need to match.

Annualized Pay Rate must match unless the Adjustment line has all of the following detail:

- Earnings Type is CLDE, HTRT, LNGY, DTSF, EXST, PMBK or AVFG
- Earnings are less than zero
- Time Base is not RWPM

Matching Criteria: Bargained Retroactive Pay Rate

Background

Transaction Types Adjustment (ADJS), Bargained Retroactive Pay Rate (RPRA) and Special Pay Earnings types are matched to either companion contribution lines within the same uploaded file or to contribution lines previously submitted/posted to CalSTRS. The matching process is performed to establish a link between the adjustment or special pay contribution lines to previously submitted contribution lines or companion contribution lines on the same uploaded file.

Transaction Type

This field must match.

The Transaction Type must be Regular (RGLR), Adjustment (ADJS) or Bargained Retroactive Pay Rate (RPRA) on the target line(s) to be considered a match.

A maximum of two Bargained Retroactive Pay Rate transactions can exist for a given Client ID, employer and pay period range. If a third Bargained Retroactive Pay Rate transaction is uploaded to the system, it will return an error.

A maximum of one Bargained Retroactive Pay Rate transactions can exist for a given Client ID, employer and pay period range with assignment code 36 (RWP). If a second Bargained Retroactive Pay Rate transaction is uploaded to the system, it will return an error.

Organization Code

This field must match.

Benefit Program Member Code

This field must match.

Benefit Program Member Code DB1 is considered a match for previously submitted/posted Member Code 1 contribution lines. Benefit Program Member Code DB2 is considered a match for previously submitted/posted Member Code 2 contribution lines.

At implementation, all existing Cash Balance contribution lines in CalSTRS system will be populated with Benefit Program Member Code CB1.

Client ID

This field must match.

Last Name

NA

Pay Period Begin Date

This field must match.

The range of pay period on the reversal line must cover exactly the range of all pay periods on the target line or lines.

Example – single target line:

If the Pay Period Begin of the target line is 9/1/2019 and the Pay Period End is 9/30/2019, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 9/1/2019 and the Pay Period End must be exactly 9/30/2019.

Example –multiple target lines:

If the earliest Pay Period Begin of the target lines is 8/1/2019 and the latest Pay Period End of all the target lines is 5/31/2020, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 8/1/2019 and the Pay Period End must be exactly 5/31/2020. No target lines may precede the Pay Period Begin or exceed the Pay Period End of the Reversal/Adjustment line.

Pay Period End Date

This field must match.

The range of pay period on the reversal line must cover exactly the range of all pay periods on the target line or lines.

Example – single target line:

If the Pay Period Begin of the target line is 9/1/2019 and the Pay Period End is 9/30/2019, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 9/1/2019 and the Pay Period End must be exactly 9/30/2019.

Example –multiple target lines:

If the earliest Pay Period Begin of the target lines is 8/1/2019 and the latest Pay Period End of all the target lines is 5/31/2020, then the Pay Period Begin on the Reversal/Adjustment line must be exactly 8/1/2019 and the Pay Period End must be exactly 5/31/2020. No target lines may precede the Pay Period Begin or exceed the Pay Period End of the Reversal/Adjustment line.

Service Type

This field must match.

The Service Type is considered a match if the Bargained Retroactive Pay Rate line and target line(s) have the same Service Type or the Bargained Retroactive Pay Rate line has a Service Type populated and the target line(s) Service Type is null.

If Service Type is Reduced Workload Program (RWPM), target lines where earnings are null or zero are excluded from matching.

Bargained Retroactive Pay Rate transactions are not allowed for Service Type Outgrowth (OUTG).

Assignment Code

This field is not required.

Assignment Code is not required for matching for the Cash Balance benefit program.

Time Base

This field must match.

Time Base is considered a match if the target line(s) have the same Time Base or the Reversal line has a Time Base populated and the target line(s) Time Base is null and Pay Code is not 4 or 8.

If ...	Then ...
Time Base is null on the target line(s) and the Pay Code is 4	Time Base must be Part Time Hourly (PTHR)
Time Base is null on the target line(s) and the Pay Code is 8	Time Base must be Part Time Daily (PTDL)

Full-Time Base Hours For Position

This field must match.

Full-Time Base Hours is not required for matching for the Cash Balance benefit program.

Work Hours Per Day

NA

Expected Pay Periods

This field must match.

Expected Pay Period is considered a match if the Reversal, Adjustment or Bargained Retroactive Pay Rate line and target line(s) have the same Expected Pay Period or the Reversal, Adjustment or Bargained Retroactive Pay Rate line has an Expected Pay Period populated and the target line(s) Expected Pay Period is null but matches to a similar Pay Code.

If Expected Pay Period is null on the target line(s) the following Expected Pay Period and Pay Codes combinations must exist to consider a match:

Expected Pay Periods	Pay Code
13JJ	7
12JJ	1 or 0
1100	2
11JM	2
11AJ	2
1000	3
10JA	3
10JM	3
10AM	3
10AJ	3
10SJ	3

Expected Pay Period is not required for matching for the Cash Balance benefit program.

Annualized Pay Rate

This field must NOT match.

If a second Bargained Retroactive Pay Rate transaction is submitted for the same Client ID, employer and pay period range, the system will use the Annualized Pay Rate of the first Bargained Retroactive Pay Rate transaction for business rule calculation purposes that evaluate whether the second Bargained Retroactive Pay Rate transaction is accurate (i.e., service credit calculation).

If multiple target line(s) are found with differing Annualized Pay Rates for the same Client ID, employer and pay period range the system will evaluate each grouping of unique Annualized Pay Rates for matching/business rule evaluation purposes. If no unique set of Annualized Pay Rate groupings match or pass business rule evaluation, then all Annualized Pay Rates are used for matching/business rule evaluation.

Earnings

NA

Earnings Type

This field must match.

Earnings Type must match exactly unless the target line(s) Earnings Type is "Special Pay". All special pay Earnings Types (CLDE, HTRT, LNGY, DTST, EXST, PMBK, AVFG) are considered a match when the target line(s) Earnings Type is "Special Pay."

At implementation, all existing Defined Benefit contribution lines with Contribution Code 6 (special compensation) will be populated with Earnings Type "Special Pay."

Verify the Client ID and make any necessary corrections. Contact CalSTRS for assistance if the Client ID is correct.

Message ID 3031124 – The existing transfer record must be posted before creating the payroll detail.

Client ID reported matches a membership account that is included in a 'Transfer Membership Account' process and the transfer record is not in 'Approved' status. Payroll detail records cannot be processed until the transfer record status is in 'Approved' status.

Verify the Client ID and make any necessary corrections. Contact CalSTRS for assistance if the Client ID is accurate.

Message ID 30301132 – San Francisco retirement system elect.

The reported Client ID is for an employee who is a member of the San Francisco Retirement System.

Verify which retirement system this employee belongs. If they are a member of the San Francisco Retirement System, void the payroll detail record from your Payroll Summary and reverse any posted payroll detail records in the CalSTRS system, if applicable.

Contact CalSTRS for assistance if the employee should not be marked in the CalSTRS system as a member of the San Francisco Retirement System.

Message ID 30301181 – Pay Rate adjustment alters earned to earnable ratio for the Pay Period range.

Transaction Type Bargained Retroactive Pay Rate Adjustment (RPRA) was reported, but the earned to earnable ratio for the Earnings and Annualized Pay Rate reported does not match the earned to earnable ratio for the target payroll detail record(s). Earned to earnable ratio is calculated as the sum of all earnings on target payroll detail records divided by the Annualized Pay Rate. Earned to earnable ratio must match within +/-0.0014 of earned to earnable ratio of target payroll detail record(s).

Verify the Earnings, Annualized Pay Rate, Pay Period Begin Date and Pay Period End Date and make the necessary corrections. Correct the Member Contributions and Employer Contributions values as needed if the Earnings value is changed. If Earnings, Annualized Pay Rate, Pay Period Begin Date and Pay Period End Date are correct and the earned to earnable ratio exceeds +/-0.0014 of the earned to earnable ratio on the target lines, reverse the target lines and submit payroll detail records for the new earnings and annualized pay rate using Transaction Type Regular (RGLR) or Adjustment (ADJS).

Message ID 30301187 – Reported {0} exceeds the allowed variance from the system-calculated amount for this Contribution Type.

Member Contributions and/or Employer Contributions do not match the system-generated contributions. Reported contributions must be within +/- \$0.03 of the system-generated contributions.

Verify Member Contributions and Employer Contributions and make the necessary corrections.

Message ID 30301188 – Non-member reported with contributions.

Benefit Program Member Code Defined Benefit Non Member (DB2) or Cash Balance Non Member (CB2) was reported but Member Contributions are not equal to zero. Member Contributions must be zero when Benefit Program Member Code is Defined Benefit Non Member (DB2) or Cash Balance Non Member (CB2).

Verify the Benefit Program Member Code and Member Contributions and make any necessary corrections.

Message ID 30301192 – Pay Period crosses fiscal year.

Pay Period Begin Date and Pay Period End Date occur in two different fiscal years (July 1 to June 30 of the following calendar year). Pay Period Begin Date and Pay Period End Date must occur within the same fiscal year.

Verify the Pay Period Begin Date and Pay Period End Date and make any necessary corrections. If the dates are correct, report two separate payroll detail records so that the Pay Period Begin Date and Pay Period End Date occur in the same fiscal year and update the other fields on each payroll detail record accordingly.

Message ID 30301213 – Reporting period cannot overlap Jan 1, 2001 or Dec 31, 2010.

Pay period range reported overlaps January 1, 2001 or December 31, 2010. If Pay Period Begin Date is prior to January 1, 2001, Pay Period End Date must be prior to January 1, 2001. If Pay Period Begin Date is on or after January 1, 2001 and prior to January 1, 2011 Pay Period End Date must be on or prior to December 31, 2010.

Verify the Pay Period Begin Date and Pay Period End Date and make any necessary corrections. If the dates are correct, report two separate payroll detail records so that the Pay Period Begin Date and Pay Period End Date do not overlap January 1, 2001 or December 31, 2010 and update the other fields on each payroll detail record accordingly.

Message ID 30301217 – The Benefit Program is not a valid option for this Payroll Detail record.

Benefit Program and/or Benefit Structure is not active for the Organization Code during pay period reported. Pay Period Begin Date must be on or after Start Date of Benefit Program and/or Benefit Structure for Organization Code.

Verify payroll detail record is under the correct Benefit Program and/or Benefit Structure and make any necessary corrections. If the Benefit Structure and/or Benefit Structure is correct, verify the Pay Period Begin Date and make any necessary corrections. Contact CalSTRS for assistance if the Start Date of the Benefit Program and/or Benefit Structure for the Organization Code appears incorrect.

Message ID 30301229 – Date of Birth is missing for the Client ID in context. A new Enrollment is required to be posted for further processing the Payroll detail.

Client ID reported matches to a person record without a Date of Birth. Date of Birth must exist in the CalSTRS system for the person in context before a payroll detail record can be processed.

If the Client ID is incorrect, make any necessary corrections. If the Client ID is correct, submit an enrollment with the correct Date of Birth or contact CalSTRS for assistance.

Message ID 30301239 – Reported Earnings, Member Contributions, and Employer Contributions cannot be negative for 'Regular' Payroll Detail records.

Transaction Type Regular (RGLR) was reported but the Earnings, Member Contributions and/or Employer Contributions reported are negative. Earnings, Member Contributions and Employer Contributions must all be positive for Transaction Type Regular (RGLR).

Verify the Transaction Type and make any necessary corrections. Transaction Type Adjustment (ADJS) should be used to correct a process payroll detail record. If the Transaction Type is correct, verify the Earnings, Member Contributions and/or Employer Contributions contain valid, positive values.

Message ID 30301243 – Open Alternative Retirement Program exists for this Employer.

Cash Balance contribution line was reported with a Pay Period End Date during a period for which Member Type Alternative Retirement Program (ARP) exists for the same employer.

Verify the Pay Period End Date and make necessary corrections. If Pay Period End Date is correct, contact CalSTRS for assistance.

Message ID 30301244 – Compensation reported after date of death.

Pay Period End Date is more than one reporting period after the reporting period associated to the date of death in the CalSTRS system for the Client ID reported.

Verify the Pay Period End Date and make any necessary corrections. Contact CalSTRS for assistance if the date of death in the CalSTRS system is incorrect.

Message ID 30301252 – Felony Convictions alert exists, cannot submit contribution lines for this pay period.

Client ID matches a person record with an active ‘Felony Conviction’ alert and the Felony Commission Date is on or before the reported Pay Period End Date.

Verify the Client ID and Pay Period End Date and make any necessary corrections. Contact CalSTRS for assistance if the Client ID and Pay Period End Date are correct.

Message ID 30301256 – Contributions cannot be negative for transaction type of {0}.

Transaction Type Pre-Tax Account Receivable (PRAR) or Post-Tax Account Receivable (POAR) was reported with a negative value for Member Contributions. Member Contributions must be positive when Transaction Type is Pre-Tax Account Receivable (PRAR) or Post-Tax Account Receivable (POAR).

Verify Transaction Type and make any necessary corrections. If Transaction Type is correct, verify Member Contributions and make the necessary corrections.

Message ID 30301261 – Client ID is invalid.

Client ID was reported but contains non-numeric values or more than 10 digits. Client IDs must be numeric and not be greater than 10 digits.

Verify Client ID and make the necessary corrections.

Message ID 30301262 – Last Name is invalid.

Last Name field is blank, or value provided is invalid. The Last Name field must contain at least one character but no more than 50 characters and cannot contain any numeric or special characters except hyphens (-) and/or apostrophes (').

Provided a valid Last Name in the required field.

Message ID 30301275 – No person match can be made.

Client ID and Last Name reported cannot be matched to a person record in the CalSTRS system. Person record match must be made to process the payroll detail record.

Verify the Client ID and Last Name and make any necessary corrections. Client ID cannot be reported with a former last name. Contact CalSTRS for assistance if the Client ID and Last Name are correct.

Message ID 30301276 – Matched person is voided.

Client ID reported matches to a person record that has been voided in the CalSTRS system.

Verify the Client ID and make any necessary corrections. Contact CalSTRS for assistance if the Client ID is correct.

Message ID 30301277 – CB Non-member employment record exists for this employer.

Benefit Program Member Code Defined Benefit Member (DB1) was reported, but the Pay Period End Date falls within the period of an employment record cross-reference with Member Type CB Non Member for the Client ID and Organization Code reported. Benefit Program Member Code Defined Benefit Member (DB1) can only be reported when an employment cross-reference with Member Type DB Member exists for the applicable period, person and employer.

Verify the Client ID, Organization Code, Benefit Program Member Code and Pay Period End Date and make any necessary corrections. If needed, create an employment cross-reference with Member Type DB Member for the person and employer using the Employment File or Employment Detail Maintenance screen.

Message ID 30301278 – No employment record exists for this employer.

Employment record match cannot be made for the Client ID, Organization Code and Benefit Program Member Code reported. Employment record must exist under the benefit program in context in order to submit payroll detail records.

Verify Client ID, Organization Code and Benefit Program Member Code and make any necessary corrections. If Client ID and Organization Code are correct, create an employment record by submitting an enrollment transaction using the Employment File or Employment Detail Maintenance screen.

Message ID 30301279 – Pay period overlaps with EPMC effective date.

Pay Period Begin Date and Pay Period End Date overlaps with the Employer Paid Member Contribution (EPMC) provision for the Organization Code reported. Pay Period Begin Date must be on or after the EPMC effective date and the Pay Period End Date must be on or before the EPMC end date.

Verify the Pay Period Begin Date and Pay Period End Date and make any necessary corrections. If the Pay Period Begin Date and Pay Period End Date are correct, report two separate payroll detail records so that the pay period span on an individual record does not overlap with the EPMC effective or end date for the Organization Code.

Message ID 30301282 – Pay Period Begin Date cannot be greater than Pay Period End Date.

Pay Period Begin Date provided is later than Pay Period End Date provided. Pay Period Begin Date cannot be after Pay Period End Date (e.g., Pay Period Begin Date 20071115 and Pay Period End Date 20071113).

Verify Pay Period Begin Date and Pay Period End Date and make the necessary corrections.

Message ID 30301286 – Pre/Post Tax Account Receivable cannot be reported with a future date.

Transaction Type Pre-Tax Account Receivable (PRAR) or Post-Tax Account Receivable (POAR) was reported, but the Pay Period Begin Date is after the system date. Pay Period Begin Date must be on or after the system date when Transaction Type is Pre-Tax Account Receivable (PRAR) or Post-Tax Account Receivable (POAR).

Verify the Transaction Type and Pay Period Begin Date and make any necessary corrections. If needed, wait to report the payroll detail record until system date is on or after the Pay Period Begin Date.

Message ID 30301295 – Bargained Retroactive Pay Rate Adjustment is invalid for Outgrowth Service Type.

Transaction Type Bargained Retroactive Pay Rate Adjustment (RPRA) was reported with Service Type Outgrowth (OUTG). Transaction Type Bargained Retroactive Pay Rate Adjustment (RPRA) is invalid when Service Type is Outgrowth (OUTG).

The valid Transaction Types when Service Type is Outgrowth (OUTG) are Regular (RGLR) and Adjustment (ADJS).

Verify Service Type and make any necessary corrections. If Service Type is correct, report adjustments to earnings using Transaction Type Adjustment.

Message ID 30301296 – Earnings, Member Contributions and Employer Contributions must all be positive or negative.

Earnings, Member Contributions and Employer Contributions contain a combination of positive and negative values. These fields must all be positive, or all be negative.

Verify the Earnings and make any necessary corrections. If the Earnings are positive, report the appropriate positive Member Contributions and Employer Contributions. If the Earnings are negative, report the appropriate negative Member Contributions and Employer Contributions.

Message ID 30301297 – Time Base is prohibited for Service Type.

Service Type Retired Activities (RETA), Outgrowth (OUTG) or Trustee Service (TRST) was reported, and Time Base field is populated. Time Base field must be blank when Service Type is Retired Activities (RETA), Outgrowth (OUTG) or Trustee Service (TRST).

Verify Service Type and make any necessary corrections. If Service Type is correct, remove the value from Time Base field.

Message ID 30301298 – Earnings, Member Contributions, and Employer Contributions cannot all contain zero or blank amounts.

Earnings, Member Contributions and Employer Contributions all contain zeros or were all left blank. Earnings, Member Contributions and Employer Contributions fields must be populated.

Verify Earnings, Member Contributions and Employer Contributions and make the necessary corrections.

Message ID 30301303 – Elected Officer Service Type is invalid for Reduced Workload Program.

Service Type Elected Officer (ELOF) was reported with Time Base Reduced Workload Program (RWPM). Time Base Reduced Workload Program (RWPM) is not valid for Service Type Elected Officer (ELOF).

Verify Service Type and Time Base and make any necessary corrections. Provide a valid Time Base for the appropriate Service Type.

Message ID 30301304 – Invalid Assignment Code for RWP Time Base or Invalid Time Base for Assignment Code 36.

Assignment Code 36 was reported without the Time Base Reduced Workload Program (RWPM) or Time Base Reduced Workload Program (RWPM) was reported without Assignment Code 36. Time Base Reduced Workload Program (RWPM) and Assignment Code 36 can only be reported together.

Verify Assignment Code and Time Base and make the necessary corrections.

Message ID 30301305 – Invalid Assignment Code for Elected Officer Service Type or invalid Service Type for Assignment Code 37.

Assignment Code 37 was reported without Service Type Elected Officer (ELOF) or Service Type Elected Officer (ELOF) was reported without Assignment Code 37.

Service Type Elected Officer (ELOF) and Assignment Code 37 can only be reported together.

Verify Assignment Code and Time Base and make the necessary corrections.

Message ID 30301306 – Invalid Assignment Code for Substitute Time Base or invalid Time Base for Assignment Code 54.

Assignment Code 54 was reported without Time Base Substitute (SUBS) or Time Base Substitute (SUBS) was reported without Assignment Code 54. Time Base Substitute (SUBS) and Assignment Code 54 can only be reported together.

Verify Assignment Code and Time Base and make the necessary corrections.

Message ID 30301307 – Earnings Type is invalid.

Earnings Type reported is not a valid value. The following code values are valid Earnings Type values:

Code Value	Description
SLRY	Salary
CLDE	Special Pay Certificate/License/Degree
HTRT	Special Pay Hiring/Transfer/Retirement
LNGY	Special Pay Longevity
DTSF	Special Pay Difficult to Staff
EXST	Special Pay Excess Students
PMBK	Special Pay Performance Benchmark
AVFG	Special Pay Available Funding
Null	

Provide a valid value for Earning Type. Contact CalSTRS for assistance if the reported earnings do not fit into one of the valid Earnings Type values.

Message ID 30301308 – Assignment Code 71 is invalid for Pay Period or Benefit Structure.

Assignment Code 71 was reported, but the Pay Period End Date is after 07/01/2002 and the Benefit Structure on the Employer Payroll Header is not DB 2% at 60. Assignment Code 71 is only valid for compensation earned on or after 07/01/2002 by a DB 2% at 60 member.

Verify the Assignment Code and Pay Period End Date and make any necessary corrections. If the payroll detail record is reported under the incorrect Employer Payroll

Header, void the payroll detail record from the header and create a new payroll detail record under correct header.

Contact CalSTRS for assistance in determining if the reported earnings are creditable compensation and how to report if needed.

Message ID 30301309 – Special Pay Hiring/Transfer/Retirement invalid for Assignment Code or Benefit Structure.

Earnings Type Special Pay Hiring/Transfer/Retirement (HTRT) was reported without Assignment Code 71 and/or under Benefit Structure DB 2% at 62. Earnings Type Special Pay Hiring/Transfer/ Retirement (HTRT) must be reported with Assignment Code 71 and can only be reported for Benefit Structure DB 2% at 60.

Verify Earnings Type, Assignment Code and Benefit Structure and make the necessary corrections. If the Benefit Structure is incorrect, void the payroll detail record from the current Employer Payroll Header and add a new payroll detail record to the correct header.

Contact CalSTRS for assistance determining whether the earnings are creditable compensation, if needed

Message ID 30301310 – Assignment Code 71 is invalid for Benefit Program Member Code.

Assignment Code 71 was reported without a valid Benefit Program Member Code value. Assignment Code 71 is only valid when the Benefit Program Member Code is Defined Benefit Member (DB1).

Verify Assignment Code and Benefit Program Member Code and make any necessary corrections. If the reported earnings are not creditable compensation, void the payroll detail record from the Employer Payroll Header.

Contact CalSTRS for assistance in determining if the earnings are creditable compensation, if needed.

Message ID 30301311 – No salary line exists.

Earnings Type Special Pay (CLDE, HTRT, LNGY, DTSF, EXST, PMBK, or AVFG) was reported but a match cannot be made to posted payroll detail records, or a payroll detail record on the same Employer Payroll Header, with Earnings Type Salary (SLRY) that matches the following criteria:

- Client ID
- Organization Code

- Benefit Program Member Code
- Service Type
- Assignment Code (does not apply for Assignment Code 71)
- Time Base
- Annualized Pay Rate (does not apply for Time Base Reduced Workload Program)
- Pay Period Begin Date/Pay Period End Date (must overlap by at least one day)
- Expected Pay Periods

Verify the Earnings Type and make any necessary corrections. Contact CalSTRS for assistance determining whether the earnings are creditable compensation, if needed.

Message ID 30301312 – Special Pay total is negative for fiscal year.

Earnings Type Special Pay (CLDE, HTRT, LNGY, DTSF, EXST, PMBK, or AVFG) was reported, and the sum of all special pay earnings and contributions, including companion payroll detail records, for the fiscal year is negative. Total special pay earnings and contributions for the fiscal year cannot be a negative value.

Verify the reported payroll detail record in comparison to posted payroll detail records for the fiscal year, Client ID and Organization Code and make any necessary corrections.

Message ID 30301315 – Assignment Code is no longer valid.

Assigned Code was reported with one of the following values that was either decommissioned or replaced by another Assignment Code value:

Code Value	Description
34	decommissioned, replaced by Assignment Code 36
35	decommissioned
44	decommissioned; replaced by Assignment Code 54
45	decommissioned; replaced by Assignment Code 55
47	decommissioned; replaced by Assignment Code 57
49	decommissioned
56	decommissioned
59	decommissioned
62	decommissioned
63	decommissioned
64	decommissioned
72	decommissioned

Verify Assignment Code and make the necessary correction. Posted payroll detail records with Assignment Code 34, 44, 45 or 47 may be adjusted using the applicable replacement Assignment Code value referenced above.

Contact CalSTRS directly for assistance adjusting posted payroll detail records for decommissioned Assignment Codes.

Message ID 30301316 – Time Base is invalid

Time Base was reported but the value is not one of the following valid values:

Code Value	Description
FLTM	Full Time

Message ID 30301342 – Annualized Pay Rate is prohibited for Outgrowth Service Type.

Service Type Outgrowth (OUTG) was reported, but Annualized Pay Rate field is not blank. Annualized Pay Rate field must be blank when Service Type is Outgrowth (OUTG).

Verify Service Type and make any necessary corrections. If Service Type is correct, remove the value from Annualized Pay Rate field.

Message ID 30301343 – CCCC Service Type is invalid for account, employer or for Benefit Program Member Code.

Service Type community college comparison calculation (CCD/CCCC) value (01, 02, 03, 04, or 05) was reported but the reported Organization Code is not for a community college district, the membership account for the reported Client ID is not eligible for the community college comparison calculation, or the Benefit Program Member Code is not Defined Benefit Member (DB1).

Verify Service Type, Client ID and Benefit Program Member Code and make any necessary corrections. Contact CalSTRS for assistance if Service Type and Benefit Program Member Code are correct and the employee should be eligible for the community college comparison calculation.

Message ID 30301344 – Service Type is invalid for CCCC eligible account.

Service Type Teaching (TEAC), Counseling (COUN) or Librarian (LIBR) was reported but the membership account for the Client ID reported is eligible for the community college comparison calculation and the reported Organization Code is a community college district. The corresponding community college comparison calculation Service Type value must be reported in lieu of the standard value when compensation is reported for this Client ID by an Organization Code that is a community college district.

Verify the Client ID and Organization Code and make any necessary corrections. If the Client ID and Organization Code are correct, provide a valid Service Type. Valid CCD/CCCC Service Type code values are as follows:

Code Value	Description
01	CCD/CCCC Lab Instructor
02	CCD/CCCC Lecturer/General Instructor
03	CCD/CCCC Adult Education Instructor
04	CCD/CCCC Librarian
05	CCD/CCCC Counselor

Message ID 30301345 – ORS Service Type is invalid for Benefit Program Member Code.

Service Type Other Retirement System Service (ORSS) was reported but the Benefit Program Member Code is not Defined Benefit Member (DB1). Benefit Program Member Code must be Defined Benefit Member (DB1) when Service Type is Other Retirement System Service (ORSS).

Verify Service Type and Benefit Program Member Code and make any necessary corrections. Contact CalSTRS for assistance determining if the compensation is for creditable service, if needed.

Message ID 30301346 – Trustee Service Type is invalid for Benefit Program Member Code.

Service Type Trustee Service (TRST) was reported, but the reported Benefit Program Member Code is not Cash Balance Member (CB1). Service Type Trustee Service (TRST) can only be reported with Benefit Program Member Code Cash Balance Member (CB1).

Verify Service Type and Benefit Program Member Code and make the necessary corrections.

Message ID 30301347 – Elected Officer Service Type is invalid for Benefit Program Member Code.

Service Type Elected Officer (ELOF) was reported, but the reported Benefit Program Member Code is not Defined Benefit Member (DB1). Service Type Elected Officer (ELOF) can only be reported with Benefit Program Member Code Defined Benefit Member (DB1).

Verify Service Type and Benefit Program Member code and make the necessary corrections.

Message ID 30301348 – Work Hours per Day is required.

Benefit Program Member Code Defined Benefit Non Member (DB2) was reported with Time Base Part Time Hourly (PTHR), Part Time Daily (PTDL), or Substitute (SUBS), but Work Hours per Day is blank. Work Hours per Day is required when Benefit Program Member Code Defined Benefit Non Member (DB2) is reported with Time Base Part Time Hourly (PTHR), Part Time Daily (PTDL), or Substitute (SUBS).

Verify Benefit Program Member Code and Time Base and make any necessary corrections. If Benefit Program Member Code and Time Base are correct, provide a valid value for Work Hours per Day.

Message ID 30301349 – Service Credit exceeds maximum allowable for Elected Officer.

Service Type Elected Officer (ELOF) was reported but the reported Earnings bring the total service credit for elected officer service to 12.000 or more years. A member can only receive up to 12.000 years of service credit for service as an elected officer.

Verify Service Type, Client ID and Earnings and make any necessary corrections. Contact CalSTRS for assistance in determining how much service has been earned for elected officer service, if needed.

Message ID 30301350 – Full-Time Base hours for Position is invalid.

Full Time Base Hours for Position was reported but the reported value is insufficient or excessive for reported Service Type. Full Time Base Hours for Position must be within the following range for when the Service Type is a community college comparison calculation value:

Service Type	Minimum Value	Maximum Value

CCD/CCCC Lecturer/General Instructor	≥ 525	≤ 2080

Service Type	Minimum Value	Maximum Value
CCD/CCCC Adult Instructor	≥ 875	≤ 2080
CCD/CCCC Librarian	≥ 1050	≤ 2080
CCD/CCCC Counselor	≥ 1050	≤ 2080

Verify Full-Time Base Hours for Position and make the necessary corrections.

Message ID 30301352 – Work hours per Day is invalid.

Work Hours per Day was reported, but the reported value is below the minimum acceptable value (5.50), greater than the maximum acceptable value (8.50) or in an increment other than 0.25.

Verify Work Hours per Day and make the necessary corrections.

Message ID 30301353 – Work Hours per Day is prohibited.

Work Hours per Day was reported without Benefit Program Member Code Defined Benefit Non Member (DB2). Work Hours per Day can only be reported with Benefit Program Member Code Defined Benefit Non Member (DB2).

Verify the Benefit Program Member Code and make any necessary corrections. If the Benefit Program Member Code is correct, remove the value from Work Hours per Day.

Message ID 30301355 – Full-Time Base Hours is required.

Either one of the following scenarios has occurred:

Scenario 1:

Benefit Program Member Code Defined Benefit Non Member (DB2) was reported with Time Base Part Time Hourly (PTHR), Part Time Daily (PTDL) or Substitute (SUBS), but Full Time Base Hours for Position field is blank. Full Time Base Hours must be reported when Benefit Program Member Code Defined Benefit Non Member (DB2) is reported with Time Base Part Time Hourly (PTHR), Part Time Daily (PTDL) or Substitute (SUBS).

Verify Benefit Program Member Code and Time Base and make any necessary corrections. If Benefit Program Member Code and Time Base are correct, provide a valid value for the Full Time Base Hours for Position field.

Scenario 2:

Full Time Base Hours for Position and/or Service Type field is blank but the membership account for the reported Client ID is eligible for the community college comparison calculation (CCCC) and the reported Organization Code is a community

college district. Full Time Base Hours and Service Type must be reported when membership account is eligible for the community college comparison calculation (CCCC) and the employer is a community college district.

Verify the Client ID and Organization Code and make any necessary corrections. If the Client ID and Organization Code are correct, provide a valid value for the Full Time Base Hours and Service Type fields.

Message ID 30301356 – Annualized Pay Rate is Prohibited.

Assignment Code 61 was reported without Service Type Retired Activities (RETA), or Service Type Retired Activities (RETA) was reported without Assignment Code 61. Service Type Retired Activities (RETA) and Assignment Code 61 can only be reported together.

Verify Assignment Code and Service Type and make the necessary corrections.

Message ID 30301358 – Retired Activities Service Type is invalid.

Either one of the following scenarios has occurred:

Scenario 1:

Service Type Retired Activities (RETA) was reported without Benefit Program Member Code DB Non Member (DB2). Service Type Retired Activities (RETA) can only be reported with Benefit Program Member Code DB Non Member (DB2).

Verify Service Type and Benefit Program Member Code and make the necessary correction.

Scenario 2:

Service Type Retired Activities (RETA) was reported but a DB disability benefit, DB retirement benefit, or a CB retirement benefit does not exist for the Client ID during the pay period reported. Service Type Retired Activities (RETA) is only valid when the member is receiving a retirement or disability benefit from the Defined Benefit Program or a retirement benefit from the Cash Balance Benefit Program during the applicable period.

Verify the Service Type, Client ID, Pay Period Begin Date and Pay Period End Date and make any necessary corrections. Contact CalSTRS for assistance if the reported information is accurate.

Message ID 30301359 – Match to previously reported data cannot be made for Adjustment.

- Client ID
- Organization Code
- Benefit Program Member Code
- Service Type (only if populated on posted payroll detail record)
- Assignment Code (only when Benefit Program Member Code is DB1 or DB2)
- Time Base (only if populated on posted payroll detail record)
 - If target record has a Pay Code of 4 (hourly), Time Base value must be Part Time Hourly (PTHR) for match
 - If target record has a Pay Code of 8 (daily), Time Base value must be Part Time Daily (PTDL) for match
- Earnings Type (any special pay value can match when posted payroll detail record has Legacy Special Pay)
- Annualized Pay Rate (does not apply to Assignment Code 36 with a special pay Earnings Type value or to Service Type Outgrowth a +/- \$1.00 variance is allowed for F496 payroll detail records)
- Pay Period Begin Date
- Pay Period End Date
- Expected Pay Period
- Full-Time Base Hours (only if populated on posted payroll detail record and if Benefit Program Member Code is DB1 or DB2)

Verify the above information matches to the posted payroll detail record(s) to be adjusted and make the necessary corrections. If the Transaction Type on the posted detail record(s) is not Regular (RGLR), the payroll detail record(s) cannot be adjusted, they must be reversed, and the correct information reported with Transaction Type Regular (RGLR).

Message ID 30301360 – Transaction cannot span multiple pay periods.

Payroll detail records with Benefit Program Member Code Defined Benefit Non Member (DB2) and Time Base Time Base Part Time Hourly (PTHR), Part Time Daily (PTDL), or Substitute (SUBS) cannot be adjusted over multiple pay periods.

Correct the Earnings, Pay Period Begin Date and Pay Period End Date to reflect one pay period and report the additional earnings in separate transactions for each applicable pay period.

Message ID 30301361 – Transaction results in negative earnings, contributions and/or service credit for pay period range.

Transaction will result in negative earnings, contributions and/or service credit for the Defined Benefit, Defined Benefit Supplement or Cash Balance Benefit program.

Verify the Earnings, Member Contributions, Employer Contributions, Pay Period Begin Date and Pay Period Begin Date and make the necessary corrections. Contact CalSTRS for assistance with correctly reporting adjustments to posted payroll detail records, if needed.

Message ID 30301362 – Service Type is invalid for member on a benefit.

Retirement or disability benefit exists for the reported Client ID during the reported pay period, but Service Type Retired Activities (RETA) was not reported.

Verify the Client ID, Pay Period Begin Date, Pay Period End Date and Service Type and make any necessary corrections. Contact CalSTRS for assistance if the Client ID, Pay Period Begin Date, Pay Period End Date and Service Type are correct.

Message ID 30301365 – Special Pay exists for target line.

Transaction results in the reversal of a posted payroll detail record with Earnings Type Salary (SLRY) but will orphan the companion payroll detail record(s) with one of the Earnings Type Special Pay values (CLDE, HTRT, LNGY, DTST, EXST, PMBK, or AVFG). "Salary" payroll detail records can only be reversed when any associated "special pay" payroll detail record(s) are also reversed on the same Employer Payroll Header or the associated "special pay" payroll detail record(s) have already been reversed.

Verify posted payroll detail records for the associated employment and applicable pay period and add payroll detail records to the Employer Payroll Header to reverse any associated "special pay" payroll detail records. Contact CalSTRS for assistance if the "special pay" should not be associated with the "salary" payroll detail record.

Message ID 30301366 – Annualized Pay Rate is required.

Annualized Pay Rate is blank but Service Type Outgrowth (OUTG) or Retired Activities (RETA) was not reported. Annualized Pay Rate can only be blank when Service Type is Outgrowth (OUTG) or Retired Activities (RETA).

Verify Service Type and make any necessary corrections. If Service Type is correct, provide a valid value for Annualized Pay Rate.

Message ID 30301367 – Annualized Pay Rate is below minimum.

Annualized Pay Rate was reported but the reported value is below the California minimum wage based on the CalSTRS full-time minimum standards and Time Base reported.

Verify Annualized Pay Rate and Time Base and make any necessary corrections. Contact CalSTRS for assistance if Annualized Pay Rate and Time Base are correct.

Message ID 30301368 – Expected Pay Periods is invalid.

Expected Pay Periods was reported but the reported value is not one of the following values. Provide a valid value for Expected Pay Periods. Expected Pay Periods must be one of the following values:

Code Value	Description
13JJ	13- July to June (Quadra Weekly)
12JJ	12- July to June
1100	11- Unspecified Breaks
11JM	11- July to May
11AJ	11- August to June
1000	10- Unspecified Breaks
10JA	10- July to April
10JM	10- July to May (December break)
10AM	10- August to May
10AJ	10- August to June (January break)
10SJ	10- September to June
0900	9- Unspecified Breaks
09AA	9- August to April
09SM	9- September to May
09OJ	9- October to June
0800	8- Unspecified Breaks
08AM	8- August to March
08AA	8- August to April (December break)
08SA	8- September to April
08SM	8- September to May (January break)
08SJ	8- September to June (Jan/Feb break)
08OM	8- October to May
0000	0- Intermittent

Message ID 30301369 – Intermittent Expected Pay Periods is invalid for Service Type and/or Time Base.

Excepted Pay Periods 0- Intermittent (0000) was reported, with an invalid value for Time Base and/or Service Type.

Time Base must be one of the following values when Expected Pay Periods is 0- Intermittent (0000):

Code Value	Description
FLTM	Full Time
CCDN	CCD (Non-Temporary/Non-Adjunct)
CCDT	CCD (Temporary/Adjunct)
PTME	Part-Time (50% or More)
PTLS	Part-Time (Less than 50%)
PTHR	Part-Time (Hourly)
PTDL	Part-Time (Daily)
SUBS	Substitute

Service Type must be one of the following values when Expected Pay Periods is 0- Intermittent (0000):

Code Value	Description
01	CCD/CCCC Lab Instructor
02	CCD/CCCC Lecturer/General Instructor
03	CCD/CCCC Adult Education Instructor
04	CCD/CCCC Librarian
05	CCD/CCCC Counselor
ORSS	Other Retirement System Service
TRST	Trustee Service
TEAC	Teaching
COUN	Counseling
LIBR	Librarian
PRRE	Program Research/Evaluation
CRMD	Curriculum/Materials Development
METR	Mentoring/Training
HESE	Health Services
CWSR	Child Welfare Services
SVAD	Supervision/Administration
PARC	PAR Consultant
OUTG	Outgrowth

Verify Time Base and Service Type and make any necessary corrections. If Time Base and Service Type are correct, provide a valid Expected Pay Periods value.

Message ID 30301370 – Expected Pay Periods is prohibited for Benefit Program Member Code.

Benefit Program Member Code Cash Balance Member (CB1) or Cash Balance Non Member (CB2) was reported but Expected Pay Periods is not blank. Expected Pay Periods cannot be reported with Benefit Program Member Code Cash Balance Member (CB1) or Cash Balance Non Member (CB2).

Verify Benefit Program Member Code and make any necessary corrections. If Benefit Program Member Code is correct, remove the value from Expected Pay Periods.

Message ID 30301372 – Expected Pay Periods does not match previously reported RWP data.

Time Base Reduced Workload Program (RWPM) was reported but the reported Expected Pay Periods value does not match to the Expected Pay Periods value on the most recent payroll detail record with Time Base Reduced Workload Program (RWPM) for the same Organization Code and Client ID.

Verify Time Base, Pay Period Begin Date, Pay Period End Date and Expected Pay Periods and make any necessary corrections. Contact CalSTRS for assistance if the Expected Pay Periods has changed for a position in which the member is participating in the Reduced Workload Program.

Message ID 30301376 – Match to previously reported data cannot be made for Bargained Retroactive Pay Rate Adjustment.

Transaction Type Bargained Retroactive Pay Rate Adjustment (RPRA) was reported but a match cannot be made to posted or companion payroll detail record(s) based on one or more of the following matching criteria:

- Client ID
- Organization Code
- Benefit Program Member Code
- Service Type (only if populated on target payroll detail record)
- Assignment Code (only if Benefit Program Member Code is DB1 or DB2)
- Time Base (only if populated on target payroll detail record)
 - If target record has a Pay Code of 4 (hourly), Time Base value must be Part Time Hourly (PTHR) for match.

- If target record has a Pay Code of 8 (daily), Time Base value must be Part Time Daily (PTDL) for match.
- Earnings Type (any special pay Earnings Type value can match to Legacy Special Pay)
- Pay Period Begin Date
- Pay Period End Date
- Expected Pay Period
- Full-Time Base Hours (only if populated on target payroll detail record)

Verify the above information matches to the target payroll detail record(s) and make the necessary corrections.

Message ID 30301377 – Bargained Retroactive Pay Rate Adjustment is invalid for Benefit Program Member Code.

Transaction Type Bargained Retroactive Pay Rate Adjustment (RPRA) was reported but the pay period range overlaps with an employment record cross-reference with Member Type DB Non Member (DB2) or CB Non Member (CB2) for the Client ID and Organization Code reported. Transaction Type Bargained Retroactive Pay Rate Adjustment (RPRA) is invalid for periods of non-member employment.

Verify the Client ID, Organization Code, Pay Period Begin Date and Pay Period End Date and make any necessary corrections. If the Client ID, Organization Code, Pay Period Begin Date and Pay Period End Date are correct, reverse the target lines and report the new information using Transaction Type Regular (RGLR) or Adjustment (ADJS).

Message ID 30301386 – Earnings must be present for {0} transaction type.

Transaction Type Regular (RGLR) was reported with blank, zero or negative Earnings, or Transaction Type Adjustment (ADJS), Bargained Retroactive Pay Rate Adjustment (RPRA) or one of the Special Pay Earnings Types (CLDR, HTRT, LNGY, DTSF, EXST, PMBK, or AVFG) was reported with blank or zero Earnings.

Verify Transaction Type and Earnings and make any necessary corrections.

Message ID 30301387 – CB Member employment record exists for this employer.

Benefit Program Member Code was reported but an employment record cross-reference with Member Type CB Member (CB1) exists for the Client ID and Organization Code for the entire pay period. Only Benefit Program Member Code Cash

Balance Member (CB1) can be reported for this employment during this pay period unless a new employment detail record is submitted.

Verify Benefit Program Member Code, Client ID, Organization Code, Pay Period Begin Date and Pay Period End Date and make any necessary corrections. If the Benefit Program Member Code (DB1), Client ID, Organization Code, Pay Period Begin Date and Pay Period End Date are correct, create an employment record cross-reference with Member Type DB Member (DB1) by submitting an enrollment transaction using the Employment File or Employment Detail Maintenance screen.

Message ID 30301400 – Work Hours per Day is prohibited for Time Base.

Work Hours per Day was reported but the Time Base is not Part Time Hourly (PTHR), Part Time Daily (PTDL) or Substitute (SUBS). Work Hours per Day can only be reported with Time Base Part Time Hourly (PTHR), Part Time Daily (PTDL) or Substitute (SUBS) and when Benefit Program Member Code is Defined Benefit Non Member (DB2).

Verify Time Base and make any necessary corrections. If Time Base is correct, remove the value from Work Hours per Day.

Message ID 30301401 – Work Hours per Day is prohibited for Service Type Retired Activities.

Work Hours Per Day was reported with Service Type Retired Activities (RETA). Work Hours Per Day must be blank when Service Type is Retired Activities (RETA).

Verify Service Type and make any necessary corrections. If Service Type is correct, remove the value from Work Hours per Day.

Message ID 30301406 – Bargained Retroactive Pay Rate Adjustment exists for target line and must be reversed together.

Transaction results in the reversal of posted or companion payroll detail records for which bargained retroactive pay rate adjustments exist for the pay period reported. Payroll detail records cannot be reversed unless any associated bargained retroactive pay rate adjustments are also reversed.

Verify the reversal target line and make the necessary changes. If correct, add a reversal line for the associated bargained retroactive contribution line. Contact CalSTRS for assistance if the target payroll detail records need to be reversed but the bargained retroactive adjustment is valid.

Message ID 30301414 – Employee mandates DB membership.

Time Base Substitute (SUBS) was reported with Benefit Program Member Code Defined Benefit Non Member (DB2), but the employee has met or exceeded the threshold for mandatory membership in the Defined Benefit Program based on service performed on a substitute basis.

Verify whether the employee requires membership.

If the employee does not require membership, review posted payroll detail records for the Client ID and Organization Code for the fiscal year and make the necessary corrections.

If the employee requires membership, void this payroll detail record or adjust the earnings to only reflect compensation earned prior to the membership date, establish membership by submitting an enrollment transaction using the Employment File or Employment Detail Maintenance screen and report and remit contributions using Benefit Program Member Code Defined Benefit Member (DB1) for creditable compensation earned on or after the membership date.

Warning Messages and Resolutions

Message ID 30301152 – Pay Rate Increase excessive.

Annualized Pay Rate has increased over the following percentage thresholds compared to previously reported payroll detail records.

- The Contribution Line has a Pay Period Begin Date after 06/30/2011 and the Annualized Pay Rate is equal to or greater than 15% when compared to the last Contribution Line transmitted (relative to the Pay Period of the current line) for this employee from this Report Unit.
- The Contribution Line has a Pay Period Begin Date after to 6/30/2002 but Pay Period Begin Date is before 07/1/2011 and the Annualized Pay Rate is equal to or greater than 25% when compared to the last Contribution Line transmitted (relative to the Pay Period of the current line) for this employee from this Report Unit.
- The Contribution Line has a Pay Period Begin Date before 07/1/2002 and the Annualized Pay Rate is equal to or greater than 10% when compared to the last Contribution Line transmitted (relative to the Pay Period of the current line) for this employee from this Report Unit.

Verify Annualized Pay Rate and make any necessary corrections. If Annualized Pay Rate is correct, suppress this warning.

Message ID 30301196 – Pay Period Fiscal Year not on database.

Pay Period Begin Date and Pay Period End date occur in fiscal year prior to 1988-89.

Verify Pay Period Begin Date and Pay Period End Date and make any necessary corrections. If Pay Period Begin Date and Pay Period End Date are correct, suppress this warning.

•

Message ID 30301250 – Contributions alter the total contributions reported for the creditable compensation cap.

One or more payroll detail line(s) and the total of **reported contributions** for the fiscal year are not correct.

Total reported earnings have met or exceeded the creditable compensation cap for the fiscal year.

For DB 2% at 60 and CB Participant benefit structures, the cap is the IRC 401(a)(17) limit.

For DB 2% at 62 and CB PEPRA benefit structures, the cap is the PEPRA compensation cap.

Verify all associated payroll detail records that exist under the payroll summary for the member.

Contact CalSTRS Employer Help for further assistance

Message ID 30301283 – Transaction matches another transaction in the summary.

Payroll detail record matches to another payroll detail record in the Employer Payroll Summary for the same Client ID and Organization Code based on the following matching criteria:

- Employment ID
- Transaction Type
- Pay Period Begin Date
- Pay Period End Date
- Time Base
- Earnings
- Earnings Type
- Service Type
- Annualized Pay Rate
- Expected Pay Periods
- Full-Time Base Hours
- Work Hours per Day

Verify the all payroll detail records on the summary for the Client ID and Organization Code and make any necessary corrections. If this payroll detail record is a duplicate and should not be processed, void the record from the summary. If the payroll detail record is correct, suppress this warning.

Message ID 30301284 – Transaction appears to be a duplicate.

Payroll detail record matches to a posted payroll detail record in the CalSTRS system for the same Client ID and Organization Code based on the following matching criteria:

- Employment ID
- Transaction Type
- Pay Period Begin Date

- Pay Period End Date
- Time Base
- Earnings
- Earnings Type
- Service Type
- Annualized Pay Rate
- Expected Pay Periods
- Full-Time Base Hours
- Work Hours per Day

Verify posted payroll detail records for the Client ID and Organization Code for the reported pay period and make any necessary corrections. If this payroll detail record is a duplicate and should not be processed, void the record from the summary. If the payroll detail record is correct, suppress this warning.

Message ID 30301313 – Special Pay appears excessive for fiscal year.

Special pay reported for fiscal year appears excessive.

Verify special pay reported for Client ID and Organization Code for the current fiscal and make any necessary corrections. If the payroll detail record should be processed, suppress this warning. If the payroll detail record should not be processed, void the payroll detail record.

This business rule is not applied if:

- Error Message ID 30301196 is present
- Contribution line is coded with assignment code 71

Fiscal Year is prior to 2002-03

Message ID 30301351 – ORS Service is only valid when a retirement system election exists for the position.

Service Type Other Retirement System Service (ORSS) was reported, but there is not retirement system election on file for this employment record.

Verify Service Type and make any necessary corrections or void the payroll detail record if needed. If Service Type is correct, suppress this warning. Contact CalSTRS for assistance determining whether the earnings are creditable compensation, if needed.

Message ID 30301364 – Pay period service credit appears excessive.

Calculated service credit for pay period range is greater than what is expected based on reported Earnings, Annualized Pay Rate and Expected Pay Periods.

Verify Earnings, Annualized Pay Rate and Expected Pay Periods and make any necessary corrections. If Earnings, Annualized Pay Rate and Expected Pay Periods are correct, suppress this warning.

Message ID 30301403 – Employee appears to mandate DB membership.

Reported earnings for pay period appear to exceed threshold for mandatory membership in the Defined Benefit Program for service performed on a part-time hourly or part-time daily basis.

Verify whether the employee requires DB membership.

If membership is required, void the payroll detail record, establish membership by submitting an enrollment transaction using the Employment File or Employment Detail Maintenance screen, and report and remit the applicable contributions on a separate payroll detail record using Benefit Program Member Code Defined Benefit Member (DB1).

If membership is not required, suppress this warning.

Contact CalSTRS for assistance determining whether membership is required, if needed.

Information Messages and Resolutions

Message ID 30301180 – Year to date service credit excessive.

Payroll detail record has posted but the cumulative fiscal year service credit for the Client ID and Organization Code reported appears excessive. Submit separate payroll detail records to adjust this or any other posted payroll detail records, if needed.

Message ID 30301281 – Regular Transaction matches a processed transaction in the system.

Transaction Type Regular (RGLR) was reported but the payroll detail record is identical to an already posted payroll detail record (Earnings value may be different).

If transaction was intended to report additional earnings for another payroll detail record, reverse this payroll detail record and report adjustments to the posted detail record using Transaction Type Adjustment (ADJS).

No action is required if this transaction is not intended to adjust a posted payroll detail record.

Message ID 30301363 – Member has previously been reported as retired. I certify that the reporting is for service earned prior to the BED.

Verify earnings were for service earned prior to the BED and make any necessary corrections. Contact CalSTRS if you require assistance.

Message ID 30301373 – Earnings amount in excess of the IRC 401(A)(17) Limit. The contributions are calculated on the capped earnings of {0}.

Payroll detail record caused the membership account to reach the IRC 401(a)(17) limit. Contributions for the payroll detail record were calculated one of the following ways:

- Based on the capped Earnings if the Time Base is not Reduced Workload Program (RWPM)
- Based on the capped Annualized Pay Rate if the Time Base is Reduced Workload Program (RWPM)

Verify Time Base and Earnings or Annualized Pay Rate and make any necessary corrections. If information is correct, report creditable compensation for the remainder of the fiscal year without contributions.

Contributions will be due if adjustments to posted payroll detail records cause the membership account to fall below the cap.

Message ID 30301374 – Earnings amount in excess of the PEPRA Compensation limit. The contributions are calculated on the capped earnings of {0}.

Payroll detail record caused the membership account to reach the PEPRA compensation limit. Contributions for the payroll detail record were calculated one of the following ways:

- Based on the capped Earnings if the Time Base is not Reduced Workload Program (RWPM)
- Based on the capped Annualized Pay Rate if the Time Base is Reduced Workload Program (RWPM)

Verify Time Base and Earnings or Annualized Pay Rate and make any necessary corrections. If information is correct, report creditable compensation for the remainder of the fiscal year without contributions.

Contributions will be due if adjustments to posted payroll detail records cause the membership account to fall below the cap.

Business Rules Overview

Background

CB Non-Member exists for this Employer

The Benefit Program Member Code is DB Member, and the Pay Period End Date falls within a CB Non-Member period for the employer in context.

Associated Message ID: 30301277

Member is not active in any Benefit Program/Employment for the reported Pay Period

The system is unable to determine a Membership Account Employment Record based on the reported pay period date range.

Associated Message ID: 30301278

Pay period overlaps with Employer Paid Member Contributions (EPMC) effective dates

The pay period on the contribution line is not completely within the Employer Paid Member Contributions (EPMC) employer provision. The Pay Period Begin Date must be greater than or equal to the EPMC effective date AND the Pay Period End Date must be less than or equal to the EPMC end date.

Exclusion:

- Benefit Program is Cash Balance.

Associated Message ID: 30301279

Pay Period crosses fiscal years

The pay period crosses fiscal years (i.e., Pay Period Begin Date is prior to July 1 and Pay Period End Date is after June 30).

Exclusion:

- Message ID 30301196 is present.

Associated Message ID: 30301192

Service reported subsequent to date of death

The Pay Period End Date is more than one reporting period after the reporting period associated to the membership account status effective date of a deceased membership account.

Exclusion:

Associated Message ID: 30301255

Account Receivable cannot be reported with a future date

The Transaction Type is Pre-Tax Account Receivable or Post-Tax Account Receivable and the Pay Period Begin Date is greater than the system date.

Associated Message ID: 30301286

Employee Contribution exceeds the allowed variance from the system calculated amount

The reported Contributions do not match the system-calculated Contributions AND exceeds +/- \$0.05 cents.

Example 1: If the CB variance threshold is +/- \$0.05, and if the reported Pre-Tax Employee Contributions for a Payroll Detail record are \$50 but the system-calculated amount for the Pre-Tax Employee Contributions is \$51, the system must issue the error message.

Example 2: If the CB variance threshold is +/- \$0.05, and if the reported Pre-Tax Employee Contributions for a Payroll Detail record are \$50 but the system-calculated amount for the Pre-Tax Employee Contributions is \$49.95, the system must NOT issue the error message.

Exclusions:

- Message ID 30301107 is present.
- Benefit Program is Defined Benefit.

Associated Message ID: 30301110

Employer Contribution exceeds the allowed variance from the system calculated amount

The reported Employer Contribution amount does not match the system-calculated Employer Contribution amount AND exceeds +/- \$0.05 cents.

Example 1: If the CB variance threshold is +/- \$0.05, and if the reported Employer Contributions for a Payroll Detail record are \$50 but the system-calculated amount for Employer Contributions is \$51, the system must issue the error message.

Example 2: If the CB variance threshold is +/- \$0.05, and if the reported Employer Contributions for a Payroll Detail record are \$50 but the system-calculated amount for the Employer Contributions is \$49.95, the system must NOT issue the error message.

- Service Type (see note 1 below)
- Assignment Code (see note 2 below)
- Time Base (see note 1 below)
- Annualized Pay Rate (see note 3 below)
- Pay Period Begin/End Date (see note 4 below)
- Expected Pay Period (see note 1 below)

Note 1: If the Service Type and/or Time Base and/or Expected Pay Period and the matching salary line is null then no match required on those field(s).

Note 2: If Assignment Code = 71, no match required for Assignment Code.

Note 3:

- If a Bargained Retroactive Pay Rate adjustment is applicable to the matching salary line, then the special pay line must reflect the pay rate for the Bargained Retroactive Pay Rate adjustment.
- If Time Base is RWPM, no match required for Time Base field.
- If matching salary line was submitted in F496 format, pay rate is considered a match if within +/- \$1.00.
- If special pay is for a Cash Balance participant, no match required if Cash Balance salary line was submitted in VDF format.

Note 4: Pay Period is considered a match as long as it overlaps at least one day of the Pay Period on the matching salary line.

Determine Mandatory DB Membership Qualification for Contribution File - Substitute

The payroll detail record is reported with Time Base value of Substitute and the member type is DB Non-Member and the employee is qualified for mandatory DB membership.

Exclusions:

- Transaction Type = Bargained Retroactive Pay Rate Adjustment, Reversal, Pre-Tax Account Receivable, or Post-Tax Account Receivable.
- Earnings Type = special pay Earnings Type.
- Employer in context offers CB for the pay period in context.
- Service Type = Retired Activities
- Time Base is not Substitute.

Mandatory qualification is defined as follows:

Substitute:

- If Time Base = Substitute and there is 100 days or more of service reported for the associated fiscal year (calculated up to the previous reporting period) and for the same employer.
- While validating the previous period service, all the substitute time base reporting is evaluated to determine the total service.
- While validating the previous period, any contribution lines that belong to the same reporting period are excluded. (see example)

Days are determined as follows:

- $(\text{Earnings divided by (Annualized Pay Rate divided by Base Hours)}) \text{ divided by (Work Hours Per Day)}$

Example: Person worked for September 1-25th pay period. When a non-member contribution line is reported for September 25-30th the system must NOT consider the September 1-25th line as the "previous period." Rather, the "previous period" is July, assuming there was reporting for that month.

Associated Message ID: 30301414

Adjustment does not match to a previously reported Regular

The Transaction Type is Adjustment and a target Regular line cannot be identified based on the following logic:

Field	Adjustment Matching	Notes
Client ID	Match	
Organization Code	Match	
Benefit Program	Match	

Field	Adjustment Matching	Notes
Employment ID	Match	
Service Type	Match If the target record(s) do not have a Service Type populated, consider it a match for this column.	
Assignment Code	Match	Note 7
Time Base	Match If the target record(s) do not have a Time Base populated, consider it a match for this column. If target record has a Pay Code of 4 (hourly), Time Base must be Hourly for match. If target record has a Pay Code of 8 (daily), Time Base must be Daily for match.	
Earnings	No match required.	Note 2 Note 5
Earnings Type	Must match. If the target record(s) have an Earnings Type of (Legacy) Special Pay populated, consider any special pay earnings type a match for this column.	
Annualized Pay Rate	Must match.	Note 1 Note 6 Note 8 Note 10
Pay Period Begin/End Date	Must match.	Note 4
Expected Pay Period	Must match.	Note 7 Note 11
Transaction Type	Must be Regular.	
Member Contributions (Pre/Post)	No match required.	Note 5
Employer Contributions	No match required.	Note 5
Full-Time Base Hours for Position	Must match If the target record(s) are OFF and Full-Time Base Hours for Position is NOT populated, consider it a match for this column.	Note 9
Work Hours Per Day	No match required.	Note 7

Note 1: Annualized Pay Rate must match, unless the contribution line has all of the following:

- Earnings Type = any Special Pay earnings type
- Earnings = less than zero
- Time Base = not Reduced Workload Program

Note 2: The sum of all earnings on the target line(s) must be greater than zero. The calculation must factor in both Regular and Adjustment transaction types for this calculation.

Note 3: Reversed/reversal lines must be excluded from matching criteria.

Note 4: The range of pay period on the earnings adjustment line must cover exactly the range of all pay periods on the target line or lines.

Example: Single target line: If the Pay Period Begin of the target line is 9/1/2009 and the Pay Period End is 9/30/2009, then the Pay Period Begin on the earnings adjustment line must be exactly 9/1/2009 and the Pay Period End must be exactly 9/30/2009.

Example: Multiple target lines: If the earliest Pay Period Begin of the target lines is 8/1/2008 and the latest Pay Period End of all the target lines is 5/31/2009, then the Pay Period Begin date on the earnings adjustment line must be exactly 8/1/2008 and the Pay Period End date must be exactly 5/31/2009. No target lines may exceed the Pay Period Begin or End of the earnings adjustment line.

Note 5: Adjustment lines will always either partially add or negate previously posted lines. If an adjustment fully negates a previously posted line, the system will identify it as a reversal and bypass the adjustment matching logic.

Note 6: Annualized Pay Rate must match exactly to target lines that are NFF. Otherwise, it must match within +/- \$1.00 of variance to non-NFF lines.

Note 7: Assignment Code, Work Hours Per Day, and Expected Pay Periods matching only applies if the Benefit Program is Defined Benefit.

Note 8: For Outgrowth Service Type, the Annualized Pay Rate does not need to match.

Note 9: Full-Time Base Hours matching only applies for the Defined Benefit program.

Note 10: If the Benefit Program is Cash Balance, the system must consider a blank Annualized Pay Rate as matching.

Note 11: If the target record(s) do not have an Expected Pay Period populated, match to a Pay Code per the following logic:

Expected Pay Period	Pay Code
13	7
12	1 or 0
11	2
10	3

Special Pay associated to a Salary Earnings Type must be reversed together

A salary line cannot be reversed without also reversing any special pay associated to it.

A contribution line coded with an Earnings Type of Salary cannot be reversed if a Non-Salary (special pay) Earnings Type has been matched to the salary line and is not also being reversed.

Calculate Service Credit Discrepancy for Bargained Retroactive Pay Rate Adjustments (Contribution File only)

The earnings do not retain the same service credit earned to earnable ratio based on a service credit calculation for the service period range.

The below steps determine the service credit discrepancy if the bargained retroactive pay rate adjustment:

- Calculate old service credit (prior to adjustment) as the sum of Earnings on all lines targeted for adjustment divided by the Annualized Pay Rate
- Annualized Pay Rate used must be the Annualized Pay Rate on the record with the earliest reporting period.
- If there is a Bargained Retroactive Pay Rate Adjustment record in the target lines, then use the Annualized Pay Rate in the Pay Rate Adjustment record for the service credit calculation.

- Calculate new service credit (subsequent to adjustment) as the sum of Earnings on all lines targeted for adjustment, including the adjustment lines Earnings, divided by Annualized Pay Rate from adjustment line.
- The threshold between the old service credit and the new service credit cannot exceed +/- 0.0014.

Note 1: For the identified target lines based on the pay period begin and pay period end date, if there is more than one pay rate for the identified period, then group the records based on the Annualized Pay Rate and Assignment Code and match the adjustment line to each group of the target line records until a match is found.

Note 2: Companion contribution lines within the same payroll summary are included when checking for service credit discrepancy.

Note 3: Previously posted (but not companion) retroactive pay rate adjustment contribution lines are included when checking for service discrepancy. Multiple retroactive pay rate adjustments cannot be submitted on the same payroll summary (i.e., as companion lines), but must be submitted separately.

Note 4: If multiple pay rates are found among the target lines, target contribution lines will be grouped by pay rate (factoring in any previous pay rate adjustments). If the incoming pay rate adjustment meets the service credit discrepancy threshold for any individual pay rate grouping, the pay rate adjustment will be considered a match for only that individual pay rate grouping of target lines. However, if no pay rate grouping meets the service credit discrepancy threshold, the service credit discrepancy will be calculated using all the lines (i.e., all the pay rate groups) as target lines.

Note 5: When this business rule is invoked from DBS transfer, perform the following additional logic when considering earnings for a matched CC5 line:

Exclusions:

- This business rule is not applied if the Earnings Type of the adjustment is a special pay Earnings Type.
- This business rule applies for both DB and CB contribution lines, but for CB this business rule only applies for NFF target contribution lines (i.e., where Annualized Pay Rate is NOT zero).

Bargained Retroactive Pay Rate Adjustment is associated to a target line and must be reversed together

A reversal contribution line is submitted, and a Bargained Retroactive Pay Rate Adjustment has been matched or determined based on the below matching logic and is not also being reversed.

Field	Matching	Notes
Client ID	Match	
Organization Code	Match	
Benefit Program	Match	
Employment ID	Match	
Pay Period Begin/End Date	Match	Note 3
Assignment Code	Match	Note 2
Expected Pay Periods	Match	Note 4

Note 1: The Expected Pay Period must match if the incoming Reversal line does not represent a time base of Reduced Workload Program (RWP).

Note 2: Assignment Code matching only applies for the Defined Benefit program.

Note 3: The Pay Period on the Bargained Retroactive Pay Rate Adjustment contribution line must overlap the Pay Period of the incoming Reversal line.

Note 4: If the target record(s) do not have an Expected Pay Period populated, match to a Pay Code per the below logic if DB; otherwise (e.g. for CB), consider as matching always.

Expected Pay Period	Pay Code
13	7
12	1 or 0
11	2
10	3
9	Consider as NOT matching

Expected Pay Period does not match with previous reporting for RWP

The Expected Pay Period value does NOT match the Expected Pay Period value of a prior contribution line.

A prior contribution line is defined as follows:

- Prior contribution line can be a posted transaction line or a payroll detail record.
- Pay period must be for the prior pay period.
- Pay period must be for the same fiscal year.
- Assignment Code must be 36 (RWP)
- Organization Code must match.
- If the Expected Pay Period value is NULL for the target line, then it is considered a match.

This business rule only applies if the Time Base is RWP and the contribution line is not the first RWP line posted for the fiscal year.

Service credit is excessive for the Pay Period range

The calculated Service Credit for the Pay Period range is greater than the calculated service credit threshold for the Pay Period range.

For Full Time and RWP Time Bases the service credit threshold is calculated as follows:
 $1 / \text{Expected Pay Period factor (e.g. 13, 12, 11, 10)} * \text{unique number of reporting periods within the Pay Period range.}$

Note: Only Full Time and RWP Time Base's are included when calculating service credit for the pay period range.

Exception:

The contribution line is the 1st contribution line for the fiscal year with a Time Base of Full Time

Example 1:

Pay Period: 07/01/2018-07/31/2018

Expected Pay period: 10- August to May

Service Credit threshold = $(1 / 10) * 1 = .1$

Example 2:

Pay Period: 06/15/2018 - 08/14/2018

Expected Pay Period factor: 10

Service Credit threshold = $(1 / 10) * 3 = .3$

For time bases other than Full Time and RWP, excess service credit is calculated as follows:

- The contribution line has a Pay Period End Date after 06/30/2013 and the employer organization sub-type is 'Community College' and the cumulative service credit for the reported pay period and employer is 0.250 or greater.
- The contribution line has a Pay Period End Date after 06/30/2013 and the employer organization sub-type is NOT 'Community College' and the cumulative service credit for the reported pay period and employer is 0.200 or greater.
- The contribution line has a Pay Period End Date after 06/30/2002 and Pay Period Begin Date is prior to 07/01/2013 and the employer organization sub-type is 'Community College' and the cumulative service credit for the reported pay period and employer is 0.200 or greater.
- The contribution line has a pay period end date after 06/30/2002 and pay period begin date is prior to 07/01/2013 and the employer organization sub-type is NOT 'Community College' and the cumulative service credit for the reported pay period and employer is 0.150 or greater.

- The contribution line has a pay period end date after 6/30/1988 and pay period begin date prior to 7/1/2002 and the cumulative service credit for the reported pay period and employer is 0.100 or greater.

Exclusions (for all time bases):

Annualized Pay Rate Increase excessive

The contribution line is for a member that is greater than or equal to 52 years in age and the Annualized Pay Rate increase is excessive when compared to the previous reported contribution line.

Exclusions:

- This business rule is not applied if Message ID 30301196 is present.
- This business rule is not applied if CalSTRS does not have the birth date for the Client ID being reported.
- This business rule is not applied if Time Base is Part Time (50% or more), Part Time (Less than 50%) Part Time (Hourly) Part Time (Daily), or Substitute AND the Pay Period Begin and End Dates are subsequent to 6/30/2002.
- This business rule is excluded for Non-Members.
- This business rule is not applied for CB.

A previously reported contribution line is defined as follows:

Non-Charter Schools: The most recent Pay Period Begin Date reported with the same Organization Code and Client ID. This can be a posted contribution line or a companion contribution line within the same payroll summary.

Charter Schools: The most recent Pay Period Begin Date reported with the same Client ID and is a report unit within the same report source. This can be a posted contribution line or a companion contribution line within the same payroll summary.

Note 1: Only a line belonging to the preceding reported pay period based on the Pay Period Begin Date is considered as a previous line.

Note 2: Only a line reported within the same or prior Fiscal Year is considered as a previous line.

Note 3: If the reported contribution lines Pay Period Begin Date is for January through June, then only a line reported within the same fiscal year is considered as a previous line.

Note 4: If the reported contribution lines Pay Period Begin Date is for July through December, then a line reported in the current or previous fiscal year can be considered a previous line.

Note 5: Reversal, reversed, and adjustment contributions lines (adjustment lines are determined if the Transaction Type = Adjustment) are not considered a previous contribution line.

Note 6: Special Pay contribution lines are not considered a previous line.

Note 7: Only lines with Time Base Full Time, Reduced Workload Program (RWP), CCD (non-Temporary/non-Adjunct) or CCD (Temporary/Adjunct) are considered, for the purposes of establishing the prior line.
